THE TRINITY; This belief is held by almost all Christians. It is how they explain how God is fully human in the form of Jesus and also how his power is felt in the world today through the Holy Spirit. There is **one** God but **three** persons in the union.

Key Teachings: "God who is father, son and Holy Ghost"
When Jesus was baptised the Holy Spirit descended and said..."You are my Son"
"Our father in heaven"
"Go and make disciples of all nations, baptising them in the name of the Father, Son and Holy Spirit"
"In the beginning was the Word, and the Word was with God and the Word was God" John's Gospel

INFLUENCES; Q3 All of these ideas about GOD influence Christians in how they act and feel in their daily lives. FOR EXAMPLE - Jesus being the son of God might influence Christians to **follow in his example** in order to get into heaven and achieve salvation. For example, they might be charitable and show love to their neighbour.

JESUS CHRIST

Messiah - anointed one. Also means that Jesus is the 'King'
Son Of God Jesus is God incarnate
Lord and Saviour Jesus is the saviour sent by God to atone for our sins
Agape The Christian love which Jesus shows through the parables in the Bible
Miracles actions performed by Jesus which display his Godly power on earth - immanence

NATURE OF GOD

- Calming of the storm and "Nothing is impossible with God"
benevolence - forgiving father Parable of the Lost Son. "God is love"
10 Commandments, God's Judgement - Parable of the Sheep and Goats Pt
Amos said - "Let Justice roll on like a river"

PROBLEM OF EVIL (JL Mackie - inconsistent triad) - How can God be both all loving and powerful and yet evil exists. The story of Job tries to reconcile this issue with explaining how suffering is a part of God's plan - "the lord gives and the lord takes away". Christians also argue that evil is just a privation - a lack of good

Biblical Accounts of Creation

How was the universe created? The bible begins with Genesis and the story of God creating the world. A timeline of 6 days ensue where He displays his power through his creation, light, stars, planets, plants and animals. Finally humans are created. The last of all his creation; In his image and with Free will

Most Christians see this story as a wonderful **metaphor** for God's power. They see it as an **allegorical** tale which teaches Christians about the importance of God's creation rather than being perfect timeline. Thus allowing a more scientific view of the world and its origin's e.g. the big bang.

Other Christians see this as a **literal** account. They are **fundamental** in their belief that the earth is around 5000 years old. This literal account means that each 'day' is seen as 24 hours long.

Salvation and Sin

Salvation - restoring the broken relationship between God and humanity

Atonement - The death of Jesus brings us back to God. We can live through him

Law God's laws allow us to follow the path which brings us back to him. He shows us how he wants us to behave

Sin Going against what God wants

Grace God's love for humans is blinding - we are not worthy and yet he gives it.

- Jesus was found guilty by the Sanhedrin and Pontius Pilot and sentenced to death. He was tortured and humiliated and **crucified**. As he died a Roman Soldier cried out "surely this is the son of God". He paid the ransom for our sin through his **sacrifice**. After he was laid in the tomb two women went to bathe his body and they found the tomb empty. Jesus has **resurrected** from the dead. He appeared many times and gave told his disciples to "go forth and baptise all men in the name of the father son and Holy Spirit."
- Ascension;** after 40 days Jesus rose up to heaven in view of a crowd of disciples.
- Pentecost** the Holy Spirit descended to earth after Jesus' ascension.
